GX8.5 LAMPHOLDER

AR111 HALOGEN
12V LAMPHOLDER

FLEXIBLE DESIGN

The CUBALLI DOWNLIGHT range provides multiple light output designs with interchangeable lamp options, including G12, E27, AR111 Metal Halide and AR111 Halogen. Cuballi has the ability to illuminate any space with various colours, directions and beam widths. Each Cuballi unit can be fitted with up to four different lamp options, providing simple to intricate lighting effects to meet the project needs.

CUSTOM BUILT

Each Cuballi system can be custom built to your specifications in 3 easy steps:

- STEP ONE: Select frame - 1 light, 2 light, 3 light, 4 light rectangle or 4 light square.
- STEP TWO: Select which colour Trim frame you would like – silver, white or black.
- STEP THREE: Select which lamps you will be using – G12, E27, AR111 Metal Halide or AR111 Halogen.

The appropriate lamp holders will then be supplied with the Cuballi frame housing to suit your lamp requirements.

The understated, yet sophisticated, clean lines of the Cuballi architectural downlight range make it ideal for contemporary retail stores, galleries, exhibition areas and residential applications.

CUBALLI DOWNLIGHT TRIMMED FRAMES

FEATURES

- MULTIPLE LAMP OPTIONS
